We're Hiring Nursing Assistants

Make a difference in your community – join the recruiters at Lahey Hospital & Medical Center for our Live Chat Event on Thursday, October 22.

If you have been wanting to begin and grow your career in healthcare, there has never been a better time. Nursing assistants gain valuable experience by being assigned to specific clinical areas such as Medical-Surgical units. LHMC is a great place to train and earn your certification. This is a great opportunity for Nursing Students, Certified Nursing Assistant Students, or PA Students.

We offer a competitive salary with **new increased pay rates** and **benefits that begin on DAY 1**, including free parking. As always, safety is our top priority, which is why we are taking extra precautions to protect our staff, patients, and their families.

Together, we share a commitment to delivering the very best care in every community we serve. Because when a community gets healthier, people do too.
